Careers at Sedgehill Academy

Dear Parents & Carers,

This term, all students in KS3 and KS4 will have a careers assembly.

As part of our commitment to providing students with the best start to their futures, we are contacting you to provide some additional information which may be useful when having conversations about careers at home.

The resources found at [Talking Futures](#) will complement the conversations had at Sedgehill, and range from very simple guidance for younger people, to more robust strategies appropriate for students preparing to leave school.

By clicking [here](#), you can access up-to-date careers information within Lewisham, as well as other London boroughs. This provides profiles of individual industries and businesses unique to the area, as well as an area where young people can save jobs they may be interested in for future reference.

Finally, there is fantastic tool found on the [For Learners](#) page. You, or your child, can type career keywords, such as “doctor” or “electrician” into the tool, and be presented with information such as average earnings, predicted growth in that sector, and typical responsibilities of the role.

Students will be exposed to more information throughout the year, with Careers Drop-Down-Days and a Careers Fair planned for 2026.

Students are always welcome to speak with me in **D012** regarding their careers.

Yours sincerely,

Mr Stuchfield

Associate Assistant Principal
