Careers at Sedgehill Academy

Apprenticeships

Dear parents & carers of students in Y12,

You will have recently received a letter from me regarding the beginning of the Work Experience process at Sedgehill Academy.

You will likely be having conversations regarding the next steps for your child, post-18.

I will be in touch in due course regarding the UCAS process for university applications, but if you wanted to get ahead of the curve, useful information on the sort of courses available may be found [here](#).

I would like to highlight the importance of apprenticeships, however. They are a fantastic way for young people to earn money, train on the job, and gain a qualification (some, up to the equivalent of a master's degree).

I will meet with all Sixth Formers to discuss future options, but you can have a look at the sort of opportunities available at the [Government website](#) or the [UCAS Apprenticeship Search](#).

We are too far ahead for these opportunities to be applied for, but you can still make an account, save searches, and gain an insight into the current labour and training market. Please contact me if you would like any further information or to discuss your child's future.

Students are always welcome to speak with me in **D012** regarding their careers.

Yours sincerely,

Mr Stuchfield

Associate Assistant Principal
