## Careers at Sedgehill Academy

### The Sutton Trust

Dear all,

I am writing to invite you all to apply for The Sutton Trust programme – both online and in-person.

The Sutton Trust is a UK-based foundation fighting for social mobility, aiming to ensure young people have the chance to succeed regardless of their background. They provide free, high-impact programmes for students, including summer schools and professional pathways, and publish research to influence government policy on education and work.

#### **Key Activities and Areas of Focus:**

- **University Access:** They run summer schools at leading universities (including Oxford, Cambridge, and St Andrews) and a US programme to help students apply to American universities.
- **Pathways to Professions:** They offer work experience and mentoring in sectors like banking, law, medicine, and engineering to help students from less advantaged backgrounds enter top professions.
- **Research & Policy:** The Trust publishes research to influence policy on early years, school standards, and fairer admissions.
- **Digital Support:** They offer online platforms for guidance and academic support.

Programmes open in a few days, but you can register below:

Full programmes, including work experience and summer schools: [apply here](#).

Sutton Trust Online: [apply here](#).

Please check your eligibility [here](#).

The Sutton Trust can change lives. Please apply if you are eligible and email me if you want me to know as soon as possible. I will then be on hand to assist.

Students are always welcome to speak with me in the atrium careers office.

Yours sincerely,

**Mr Stuchfield**

Associate Assistant Principal
