Careers at Sedgehill Academy

Pathways into further education

Good afternoon, KS3 Guardians and Students,

Today, all KS3 students attended an engaging Insight Talk delivered by Amy from the outreach team at London South Bank University.

During the session, Amy introduced students to a wide range of career pathways, helping them to understand that there are many different routes into future professions, including university, apprenticeships, and vocational training.

She also highlighted the importance of gaining work experience and developing transferable skills such as communication, teamwork, and resilience. Students were encouraged to start thinking early about their interests and how these can link to future opportunities.

The talk was both informative and inspiring, offering practical advice and real-life examples to help students consider their next steps. Please find Amy's presentation slides attached to this letter so you can explore the information together at home and continue the conversation.

It is never too early to start considering careers and the next steps to get there.
If you are able to secure any work experience – even for an afternoon – I am happy to authorise absences.

Students are always welcome to speak with me regarding their careers. Find me in **D012** or the **Atrium Careers Office**.

Yours sincerely,

Mr Stuchfield

Associate Assistant Principal
