AECOM: New WEX Opportunity

Dear Parents & Carers of Students in Y10 & Y12,

As you continue to search for work experience, I would like to share the opportunity below.

AECOM, one of the nation's largest infrastructure companies, works across the majority of UK industries. They are the partner of the 2028 Olympic Games and are working as government partners as part of the green revolution. They work across the world and are one of the most powerful companies we have had the chance to connect with.

Attached to the email you just received is an expression of interest form for **Work Experience** with AECOM. It is in an editable format, but I can provide hard copies in **D012** if your child would prefer.

The form is quite in-depth, and will require a CV alongside it, but I think the quality of the experience justifies the effort.

Please let me know if you plan to apply for this incredible (and first-come-first-served) opportunity – or, indeed, if you require assistance.

Students are also always welcome to speak to me in **D012** or the **Atrium Careers Office** to discuss their career plans.

Yours sincerely,

**Mr Stuchfield**

Associate Assistant Principal
