Careers at Sedgehill Academy

Where do subjects lead?

Dear Parents & Carers of Students in Y9-11,

By the end of March, depending on which year group your child is a part of, GCSE options will have been chosen, work experience placements secured, and the final set of mocks before exams completed.

The **Careers and Enterprise Service** has a fantastic resource (found [here](#)) which can be used to help inform options or future career choices.

The resource details the skills gained in each option subject at KS4, and which careers the subjects may lead to.

I would encourage you to look through the resource and use it to inform any conversations you may be having in the coming months.

Students are also always welcome to speak to me in **D012** or the **Atrium Careers Office** to discuss their career plans.

Yours sincerely,

Mr Stuchfield

Associate Assistant Principal
